**Subject: Camelford Closure**

Hi All,

Just to advise that I have had confirmation as of 10.30 today that the A39 through Camelford is reopened to traffic following completion of SWW works.

The surfacing works are currently programmed to start towards the end of January and I will be in contact in the New Year with the detail.

I would be grateful if you would pass on our thanks to all involved for their patience during this phase of the works and trust that you can now enjoy the run-up to Christmas without inconvenience.

Kind regards,  
Rebecca
